

One Garage Management System to Run **Your Whole Business.** **Autowork**

From independent garages to multi-site operations, Autowork brings your business together in one cloud-based platform, with practical AI built in to make everyday tasks easier.

Manage your workshop, customers, vehicles, parts, stock, tyres and invoicing in one place, with the flexibility to add more connected Klipboard solutions as your business grows.

Book a demo

Everything you need to run your garage, all in one place.

Running a busy garage means keeping customers, vehicles, bookings, jobs, technicians, parts and payments moving at the same time.

Autowork brings it all together, helping your team spend less time juggling different processes, paperwork and systems, and more time keeping work moving.

+ **Run your workshop from one place**

Manage bookings, job cards, technician allocation and invoicing, with a clearer view of what's happening and what needs doing next.

+ **Find, price and order parts**

Check parts, supplier prices and availability, place orders, receive goods and manage stock without leaving Autowork.

+ **Manage tyres alongside the rest of your workshop**

Check tyre stock, create quotes and fitted prices, and manage tyre work alongside servicing, maintenance and repairs.

+ **Keep customers and vehicles connected**

Keep customer details, vehicle information and history together, so your team has the information it needs when a customer calls or arrives.

+ **Take the job from invoice to payment**

Create invoices and credits, record payments, manage customer accounts and produce statements in one place.

+ **Get the information you need to complete the job**

Access vehicle information, MOT details, repair times and service schedules alongside the everyday workshop information your team needs.

Practical AI that makes everyday work easier

Autowork puts AI to work on real jobs that can save your team time.

Its AI-assisted booking capability helps identify suitable booking opportunities without manually working through the workshop diary.

It's a practical example of how Autowork is using AI to make every day work quicker and easier, while providing the foundations for AI to support more garage processes in the future.

- + **Find suitable booking opportunities faster.**
- + **Reduce repetitive manual work.**
- + **Keep everyday work moving.**

Less admin. More control. A garage that keeps moving.

+ Spend less time searching for information.

Keep more of the information your team needs in one place, reducing the time spent searching through paperwork, different processes or separate systems.

+ Stay in control on your busiest days.

See what's happening, respond quickly and keep work moving when things get busy.

+ Get up and running faster.

Autowork is designed to be straightforward to set up, learn and use.

+ From one site to many.

Whether you're running one garage or several, Autowork can support you as your business grows.

Built around automotive businesses.

Autowork draws on Klipboard's extensive experience across the automotive aftermarket and is designed for:

+ Independent garages.

+ Service centres.

+ Multi-site garage businesses.

+ Tyre businesses.

+ Service and repair workshops.

Whether you're focused on mechanical repairs, tyres or a combination of both, Autowork gives you one place to manage more of the everyday work involved in running your business.

Start with Autowork. Add more when you need it.

What sets Autowork apart is its connection to Klipboard's wider range of automotive solutions.

Start with the capabilities your business needs today, then add connected solutions such as websites, eCommerce and payments as your requirements grow.

That gives you a straightforward way to add more without having to piece together software from different providers or buy capabilities you don't need.

Nothing you don't need. More when you do.

Extend Autowork with connected Klipboard solutions as your business grows.

+ Autowork eCommerce

Take your business online with connected eCommerce capabilities.

+ AutoCat

Identify and find the right parts faster with intelligent parts lookup

+ Klipboard Money

Take and track payments while keeping more of the process connected.

Ready to run your garage smarter?

See how Autowork can bring more of your business together, make everyday work easier with AI and give you the flexibility to add more when you need it.
