Kerridge Commercial Systems

SmartDistributor Summary Factsheet

ePOD Counter for SmartDistributor

Key Functionality Summarized

This document summarizes the key features available within ePOD Counter – the countertop signature capture application.

Overview

Orders are sent directly from SmartDistributor to the device on the counter for the customer to sign. The signature captured seamlessly becomes available for view on order inquiries, and for print on documents.

Connecting to the app is as simple as entering the URL on a tablet device, and logging in with your ePOD Counter credentials.

Users for the ePOD Counter application are set up through SmartDistributor's webservices.

Easy Set Up

Once registered to the ePOD Counter app, users can set up their preferred device for signature capture by accessing the URL and logging in. Upon first login, the user will be prompted to name the device, which will be remembered upon future logins.

Review the Order

A customer's order is sent to the tablet device allowing them to review their purchase line by line before signing off on the transaction.

// The signature captured seamlessly becomes available for view on order inquiries, and for print on documents.
